CAREER OBJECTIVE

Motivated Computer Science and Engineering student interested in software development and user-focused technology. Eager to apply programming, database and problem-solving skills to practical projects while learning and contributing in a professional team.

EDUCATION

Karunya Institute of Technology and Sciences — B.Tech, Computer Science and Engineering
2024 – 2028 | Coimbatore, Tamil Nadu

TECHNICAL SKILLS

Programming / Web: HTML, CSS, JavaScript, React, Node.js
Database: MySQL
Tools: MySQL Workbench, Figma, Google Colab, Qiskit

PROJECTS

- StudySync — Smart Study Planner: Developed a web application concept for organizing academic tasks and deadlines, using React, Node.js and MySQL.
- Ambulance Service Management System: Designed a database-focused project for storing and retrieving ambulance service information using MySQL, including tables, joins, views, procedures and triggers.
- Grover's Algorithm Simulation: Implemented a 3-qubit search simulation in Qiskit for a sample patient-record search problem, using an oracle and diffuser.

INTERNSHIP EXPERIENCE

Alfido Tech — UX/UI Design Intern | 1 June – 1 July 2026

- Worked on UX/UI design activities, including a Figma mobile UX case study, design system work and website landing-page design.

CERTIFICATIONS & LEARNING

- Cisco Networking Academy — Learnathon 2026
- Google Cloud — Completed the five individual courses in the Generative AI Leader learning path.
- Microsoft — Completed AI, Azure and Data Fundamentals learning
- IBM — Completed an IBM course; Quantum business Foundations

ACHIEVEMENTS

- Qualified for Round 2 — Offline Finale in a web hackathon; contributed as the frontend team member.
